19. FAQ

1. Introduction

LaunchPad AI Hackathon is a fast-paced innovation competition designed to encourage university students to build practical Artificial Intelligence solutions addressing real-world problems. Participants will collaborate, innovate, and develop working prototypes within a limited timeframe while receiving mentorship from industry experts and faculty members. The event aims to strengthen collaboration among students from Varendra University.

2. About the Hackathon

Event Name : LaunchPad AI Hackathon 2026

Duration : 4 – 5 Hours

Mode : Offline

Venue : Varendra University

Organizer : CSE Applied Computing Club

Expected Participants : 150 +

Expected Teams : 30 – 40 Teams

3. Objectives

The objectives are to

- Promote AI innovation
- Encourage interdisciplinary teamwork
- Develop problem-solving skills
- Introduce students to rapid prototyping
- Foster startup culture
- Build industry-ready skills
- Create networking opportunities

4. Theme

" Building AI Solutions for Real-World Impact "

Participants will develop innovative AI-powered solutions to solve real-world challenges in smart campuses, healthcare, and industry, creating technologies that enhance efficiency, intelligence, and user experience.

5. Tracks & Problem Statements

Track 1: Smart Campus AI

- AI Classroom Monitoring
- Smart Timetable Optimizer
- Smart Library AI
- AI Academic Advisor
- Smart Campus Navigation

Track 2: Healthcare AI

- Medical Report Analyzer
- AI Emergency Triage
- Drug Interaction Checker
- Medical Image Analysis
- Hospital Resource Prediction

Track 3: Industry & Enterprise AI

- AI Resume Screening & Recruitment System
- AI ERP Assistant
- AI Financial Fraud Detection
- Smart Customer Support Chatbot
- AI Business Analytics Dashboard
- AI Fake News Detection
- AI Cyber Threat Detection

6. Eligibility

Participants must

- Be currently enrolled students
- Carry a valid Student ID
- Register before the deadline
- Agree to all rules

Students from

- Varendra University are eligible.

7. Team Formation

Each team must contain

Minimum: 1 Members

Maximum: 3 Members

Teams may consist of students from different universities.

Each team must appoint

- Team Leader
- Team Members

8. Registration

Registration includes

 <https://forms.gle/HowkFT5wPE3eRqAs9>

- Online Registration
- Team Information
- Student ID Verification
- Confirmation Email

Registration is first come, first served.

9. Event Timeline

Opening Ceremony : 09: 20 AM

Problem Briefing: 09: 30 AM

Hacking Begins: 09: 30 AM

Mentoring Session : Throughout the hackathon

Submission Deadline: 02: 30 PM

Project Presentation : 03: 30 PM

Award Ceremony : 04: 30 PM

10. Rules & Regulations

- Teams must consist of 1–3 members, and all members must be currently enrolled university students.
- Teams must develop a working prototype within the hackathon duration.
- Internet access is allowed for research, documentation, and API integration.
- The use of open-source libraries, frameworks, and pre-trained AI models is encouraged.
- Pre-built UI templates may be used; however, the project's core functionality and AI implementation must be developed by the team.
- Teams must disclose any AI tools, APIs, datasets, or external resources used in their project.
- Projects must be original. Plagiarism or submitting previously completed projects is strictly prohibited and will result in disqualification.
- Each team must present a live demonstration of their solution during the final evaluation.
- Teams should be able to explain their project's architecture, AI approach, and implementation during the Q&A session.
- The decision of the judges and organizing committee will be final.

11. Technical Requirements

Projects may be developed using

Python

Java

C#

Flutter

React

Next.js

Node.js

FastAPI

TensorFlow

PyTorch

OpenCV

Firebase

Supabase

MongoDB

PostgreSQL

Any cloud platform

12. AI Usage Policy

Participants may use

Google Gemini

OpenAI

Claude

Llama

DeepSeek

Hugging Face Models

However,

Teams must

Explain how AI is used.

Avoid copying AI-generated code without understanding it.

Disclose APIs used.

Maintain originality.

13. Judging Criteria

Criteria	Marks
Innovation & Creativity	20
AI Implementation & Technical Excellence	20
Problem Solving & Real-World Relevance	20
Functionality & Prototype Quality	15
UI/UX & User Experience	10
Presentation & Demo	10
Feasibility & Scalability	5
Total	100

14. Presentation Rules

Presentation Time
5 Minutes

Q&A
3 Minutes

Teams exceeding the time limit may be stopped.

15. Code of Conduct

- Treat all participants, mentors, judges, volunteers, and organizers with respect.
- Maintain academic integrity and submit only original work.
- Harassment, discrimination, offensive behavior, or disruptive conduct will not be tolerated.
- Follow all event schedules, venue rules, and instructions from the organizing committee.
- Work collaboratively and uphold fair competition.
- Any violation of the Code of Conduct may result in warnings, point deductions, or disqualification at the discretion of the organizing committee.

16. Awards

-  Champion
-  1st Runner-Up
-  2nd Runner-Up
-  Best AI Innovation Award
-  Certificate of Participation for all eligible participants.

17. Intellectual Property

Participants retain ownership of their projects.
The organizing committee reserves the right to
Publish project titles , Publish photographs
Share presentations , Promote winning projects
without claiming ownership.

18. Networking & Career Opportunities

Participants will have the opportunity to

- Meet Industry Professionals
- Connect with Startup Founders
- Receive Career Guidance
- Build Professional Networks
- Showcase Projects to Judges
- Join Future Research & Innovation Programs

19. Organizing Committee Rights

The committee reserves the right to
Modify schedules
Change judges
Merge tracks
Cancel a track
Disqualify teams violating rules
Resolve disputes

20. Event Facilities

The organizing committee will provide

- Wi-Fi
- Charging Stations
- Power Extension Boards
- Drinking Water
- Lunch
- Snacks
- First Aid Support
- Prayer Break
- Technical Support Desk

21. Participant Kit

- Official Event Welcome Kit
- Notepad & Pen
- Custom LaunchPad AI Hackathon Key Ring
- Certificate Folder
- Participation Certificate
- Refreshments, Lunch & Snacks
- **Sponsor Gift Items (if applicable)**
- **Official Event Merchandise (subject to sponsorship availability)**

Note:

Participant Kits are available only for officially registered participants who complete event check-in.
